

School Circular Regarding Summer Vacations

Dear Parents,

Congratulations of the Day!!!

Hope you all are fine and safe.

It is my privilege to extend the heartfelt thank you in following and cooperating with the virtual teaching system. We as an educator feel fully supported and led all the time by you. Mainly, I want to discuss that we have completed 30-40% syllabus in all subjects which I think students have also noted down in the notebook and keep learning it. I want to appreciate the number of parents here because they are really taking pains for the studies of their wards. As the request for the vacations from the students/parents was coming from last 20-30 days so accepting your kind of request School authority has declared 20days Summer Break for the students starting from 21/07/2021 to 10/08/2021. Teachers have been directed to issue the necessary Holidays home including activities SLC, Project Work, Portfolios making etc. work to the students. After the vacations HW will be checked and if the government permits us then we may call the students to school to get their homework checked by the teachers concerned.

•The main aim of offering Summer Vacations:

1. This is only to give some relaxation from the mental pressure of online teaching system over students which they have felt in previous months or since started from the Covid-19 period
2. To facilitate the new students and for covering up the pending syllabus by **new students**, and
3. This is mainly to provide sufficient time for the students to revise syllabus, completion of worksheets on work books and to get ready for the coming exams.

For any type of queries you can reach out to me or teachers concerned.

Wish you Happy Learning with Silicon Model School.

Thank You.

Principal
